thamizharasan2373@gmail.com | +91 8015122373 | Pondicherry, India

A performance-oriented **Full-Stack Engineer** with a specialty in the **MERN** architecture (**MongoDB, Express.js, React, Node.js**) and **Flutter** development. Expert at engineering high-scale web and multi-platform mobile software with comprehensive proficiency in full-cycle technologies. Experienced in producing elegant, reusable codebases, enhancing system throughput, and partnering with integrated teams to ship sophisticated, client-focused products. I am eager to contribute my advanced technical capabilities within a high-growth professional landscape.

PROFESSIONAL EXPERIENCE

Yitro Tech | *Dec 2025 – Present*

Frontend Developer

Built modern and scalable web applications using **React, Next.js, and Tailwind CSS**

Developed **responsive, high-performance** user interfaces with clean and maintainable code

Integrated **RESTful APIs** and collaborated with **backend** teams to deliver seamless user experiences

Worked with **Python, FastAPI** for **backend** development, and supported **full-stack** feature implementation when required

Contus Tech | *Nov 2024 – Oct 2025*

Software Development Engineer

Build scalable and efficient web applications using **React and Node.js**

Develop and maintain **front-end** and **back-end** components

Integrate **RESTful APIs** and optimize application performance

Collaborate with cross-functional teams to deliver high-quality, **maintainable** solutions

Nibav Lifts | *Mar 2024 – Oct 2024*

Full Stack Developer

Develop applications using **Next.js (React.js), Node.js, and SQL**

Utilize **Docker** for containerization to manage applications across environments

Focus on **backend improvements, API integrations, and database management**

Solve issues efficiently to ensure smooth product launches

Ocean Academy | *Apr 2020 – Mar 2024*

Full Stack Developer

Built web and mobile applications using **Node.js**, **Express.js**, **React**, **Flutter**, **Python**, and **MongoDB**

Developed backend systems focused on performance optimization

Collaborated on **UI/UX implementation** and design integration

Debugged and resolved issues to maintain clean, high-quality code

PROJECTS

Telemedicine

- Developed a telemedicine web application using **Next.js (frontend)** and **Python FastAPI** (backend)
- Built core modules including authentication, **user management**, doctor and admin onboarding, **profile management**, and account status management
- Integrated **RESTful APIs** to enable secure communication between **frontend** and **backend** services
- Developed centralized **dashboards** and management features to improve healthcare workflow efficiency for patients, doctors, and administrators

Masdr

- Developed a customer service web application using **React.js** (frontend) and **Java**, **Node.js** (backend)
- Implemented **WebSockets** for real-time interactions
- Features included live call tracking, pending calls, call history, completed calls, ask-to-join, and call transfer
- Built real-time dashboards for supervisors and agents to improve workflow efficiency

Nibav Lifts – Customer Login

- Developed a customer platform for login, lift ordering, and order tracking
- Technologies used: **Next.js (React.js)**, **Node.js**, **SQL**
- Improved customer engagement with real-time tracking and order visibility

Smoke-Free Mind

- Developed a smoking cessation app using **Flutter** and **React.js**
- Used **Firebase** for authentication and real-time data
- Backend implemented with **Node.js (Express.js)**
- Focused on reducing smoking addiction and improving overall well-being

OA Live (Online Learning Platform – Admin & Trainer)

- Developed an online learning platform using **React.js**, **Node.js (Express.js)**, and **MongoDB**
- Enabled remote education with scalable and user-friendly design
- Improved accessibility and learning flexibility

Green Puducherry

- Built a sustainability-focused app using **Flutter**, **Firebase**, and **Node.js (Express.js)**
- Promoted environmental awareness and community engagement

SKILLS

Frontend

JavaScript, React, Next.js, HTML/CSS, Tailwind, SCSS

Backend

Node.js, Express.js, Python, MongoDB, SQL, Kafka, Redis

Mobile + DevOps

Flutter, Dart, Firebase, Docker

Design + Creative

Figma, Photoshop, Illustrator, After Effects, Premiere Pro

AI Workflow

Vibe Coding, GitHub Copilot, Gemini, ChatGPT, Figma Make, Ollama (Local)

EDUCATION

MAY/2019

B.Sc Computer Science @ Deccan Educational And Research Foundation

MAR/2015

High School Diploma @ Government Higher Secondary School Nonankuppam

CERTIFICATION COURSE

[Node Js](#) @ Udemy
